Our Feeder Program is an extension of our High School program that will provide year round basketball opportunities to get better. The training will place emphasis on fundamentals, player development and basketball concepts. We will also have a community service component attached to our program. We understand that to be successful in life, our players not only need to be successful on the court, but they must also excel in the classroom, and be contributing members in their communities.

Columbine staff will conduct the tryouts, picks the teams, hire and train coaches and oversee the development of the Rebels basketball future. League play begins December 2021 through February 2022 with 2 practices per week at Columbine High school.

Parent meeting soon after tryouts.
