

What-If Implementations in Minecraft

# SPRING BREAK CAMP

## Space Exploration and Astronomy in Minecraft

What if Earth had no moon? What if our Sun were colder?  
What if YOU were a scientist? Or a Mars base engineer!

Join us in exploring imaginative worlds and astronomy scenarios in **Minecraft Java Edition**

Learners investigate space exploration "what if?" questions, such as "What if the earth were a moon?" or "What does the surface of an exoplanet look like?"

Participants play the role of scientists and engineers as they take part in creative and critical thinking design prompts, like drawing exoplanets or exhibits in the planetarium

As a final project they work in small teams to build and present a Minecraft mars base

### Camp Details

March 20 - 24

Mon – Fri: 9 am to 12 pm

Fri: Field trip to Fiske

Planetarium 1-5 pm

Lunch & transportation provided

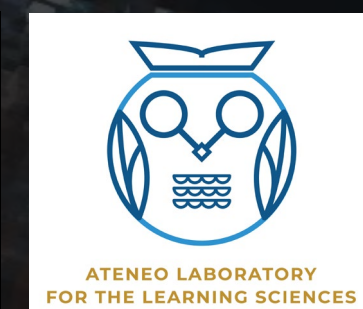

Ages 10 to 14

Clubhouse at Edgewater: 2501 Chase St.

Edgewater, CO 80214

\$50 per camper
